

BLOOD TEST ORDER FORM

If you have an opportunity to review these complex forms you will be able to ask more informed questions about your Blood and the tests that can be performed. On the reverse side of each form is the required Advance Beneficiary Notice.

As your Blood test is ordered and before the work can begin, you are required to sign an Advance Beneficiary Notice. You see this required signature block on the front side of each form.

ADVANCE BENEFICIARY NOTICE

ABN - MEDICARE

A fully signed Advance Beneficiary Notice (ABN) document is required by Medicare before submittal of your Blood test order will be processed. Other than that, the forms are exactly as you will see them when your Physician fills them out and asks you to sign them.

you will be able to ask more informed questions about exactly what the forms mean to you. You will also feel better about your Blood donation and/or transfusion experience. These forms may have legal and financial consequences for you. They are important.

ADVANCE BENEFICIARY NOTICE

Medicare will only pay for services that it determines to be reasonable and necessary under section 1862 (a) (1) of the Medicare Law. If Medicare determines that a particular service, although it would otherwise be covered, is not reasonable and necessary under the Medicare Program standards, Medicare will deny payment for that service. Tests ordered by your physician and identified on the front of this requisition with an "@"*, "&" or an "(F)" symbol are likely to be denied for payment. Those tests designated with the "@" symbol are likely to be denied for payment because Medicare usually does not pay for these tests for the reported diagnosis. Those tests designated with the "&" symbol are likely to be denied payment because the test is performed using a kit that is non-FDA approved/experimental. The Occult Blood and PSA laboratory tests that are designated with an "(F)" are likely to be denied payment because Medicare only pays for screening ONCE every TWELVE months. By signing the Patient/Responsible Party Signature on the front of this requisition, you are confirming your agreement to assume financial responsibility for the payment of these tests.

COMMON ICD-9 DIAGNOSIS CODES

To avoid unwarranted denials and subsequent rework for office staff, any requisitions sent to _____ must include all medically appropriate ICD-9 diagnosis codes. ICD-9 codes are required by certain third party payors to confirm the medical necessity of the test(s) and/or profile(s) ordered. Below are ICD-9 codes most commonly received by _____. These codes were taken from the 2000 ICD-9 manual issued by the American Medical Association. While this list may be a useful reference tool depending upon the nature of your practice, *it is not complete. Please refer to the ICD-9 manual for a complete listing. The ultimate responsibility for correct coding lies with the ordering physician. Please place all medically appropriate ICD-9 code(s) on the front of the requisition in the designated diagnosis code field. If ordering testing solely for screening purposes, please provide the appropriate screening ICD-9 code(s).*

CODE	DIAGNOSIS (symptom, illness, injury, or complaint)	CODE	DIAGNOSIS (symptom, illness, injury, or complaint)
789.00	Abdominal pain, unspecified site	272.9	Lipoid metabolism disorder, unspecified
790.6	Abnormal blood chemistry, other	794.8	Liver scan, abnormal
796.4	Abnormal clinical findings, other	724.2	Lumbago
706.1	Acne, other	780.79	Malaise & fatigue, other
496	Airway obstruction, chronic, not elsewhere classified	182.9	Malignant neoplasm of bronchus & lung, unspecified
477.9	Allergic rhinitis, cause unspecified	153.9	Malignant neoplasm of colon, unspecified
280.9	Anemia, iron deficiency, unspecified	174.9	Malignant neoplasm of female breast, unspecified
281.0	Anemia, pernicious	183.0	Malignant neoplasm of ovary
285.9	Anemia, unspecified	185	Malignant neoplasm of prostate
413.9	Angina pectoris, other & unspecified	627.2	Menopausal or female climacteric states
424.1	Aortic valve disorders	628.4	Menstrual cycle, irregular
716.90	Arthropathy, unspecified, site unspecified	626.6	Menstruation, suppression of; dysfunction, uterine hemorrhage NOS
493.90	Asthma, unspecified, without mention of status asthmaticus	626.0	Menstruation, absence of
427.31	Atrial fibrillation	626.2	Menstruation, excessive or frequent
724.5	Backache, unspecified	625.3	Menstruation, painful
466.0	Bronchitis, acute	424.0	Mitral valve disorders
427.9	Cardiac dysrhythmia, unspecified	799.9	Morbidity & mortality, other unknown and unspecified cause
425.4	Cardiomyopathies, primary, other	729.1	Myalgia & myositis, unspecified
429.2	Cardiovascular disease, unspecified	238.2	Neoplasm of uncertain behavior of skin
436	Cerebrovascular disease, acute but ill-defined (CVA NOS, stroke)	278.01	Obesity, morbid
616.0	Cervicitis & endocervicitis	278.00	Obesity, unspecified
786.50	Chest pain, unspecified	715.09	Osteoarthritis, generalized, multiple sites
286.9	Coagulation defects, other & unspecified	715.90	Osteoarthritis, unspecified whether generalized or localized, site unspecified
428.0	Congestive heart failure	733.00	Osteoporosis, unspecified
780.31	Convulsions, febrile	785.1	Palpitations
780.39	Convulsions, other	795.0	Papanicolaou smear of cervix abnormality, nonspecific
414.01	Coronary atherosclerosis or native coronary artery	443.9	Peripheral vascular disease, unspecified
414.00	Coronary atherosclerosis of unspecified type of vessel, native or graft	462	Pharyngitis, acute
786.2	Cough	486	Pneumonia, organism unspecified
311	Depressive disorder, not elsewhere classified	627.3	Postmenopausal atrophic vaginitis
110.1	Dermatophytosis of nail	790.93	Prostate specific antigen (PSA) elevation
250.01	Diabetes mellitus, type I (IDDM), not stated as uncontrolled	600	Prostatic hyperplasia
250.00	Diabetes mellitus, type II (NIDDM) or unspecified type, not stated as uncontrolled	601.9	Prostatitis, unspecified
250.02	Diabetes mellitus, type II (NIDDM) or unspecified type, uncontrolled	585	Renal failure, chronic
787.91	Diarrhea	714.0	Rheumatoid arthritis
780.4	Dizziness & giddiness	461.9	Sinusitis, acute, unspecified
995.2	Drug, medicinal & biological substance adverse effect, unsp	473.9	Sinusitis, chronic, unspecified
622.1	Dysplasia of cervix (uteri)	034.0	Streptococcal sore throat
786.09	Dyspnea & respiratory abnormalities, other	780.2	Syncope & collapse
788.1	Dysuria	710.0	Systemic lupus erythematosus
782.3	Edema	246.9	Thyroid disorder, unspecified
259.9	Endocrine disorder, unspecified	242.90	Thyrotoxicosis w/o mention of goiter, other cause or thyrotoxic crisis or storm
530.81	Esophageal reflux	463	Tonsillitis, acute
625.9	Female genital organ symptom, unspecified	435.9	Transient cerebral ischemia, unspecified
780.6	Fever	465.9	Upper respiratory infection, acute, unspecified site
558.9	Gastroenteritis & colitis, noninfectious, other & unspecified	788.41	Urinary frequency
780.9	General symptoms, other	599.0	UTI (urinary tract infection), site not specified
274.9	Gout, unspecified	616.10	Vaginitis & vulvovaginitis, unspecified
784.0	Headache	783.1	Weight gain, abnormal
599.7	Hematuria	783.2	Weight loss, abnormal
569.3	Hemorrhage of rectum & anus	V28.8	Antenatal screening, other specified
286.5	Hemorrhagic disorder due to circulating anticoagulants	V67.51	F.U exam for completed treatment w/high-risk meds, not elsewhere classified
573.3	Hepatitis, unspecified	V70.0	General medical examination (routine) at a health care facility
042	Human immunodeficiency virus [HIV] disease	V70.9	General medical examination, unspecified
272.0	Hypercholesterolemia, pure	V72.3	Gynecological examination
272.1	Hyperglyceridemia, pure	V20.2	Infant or child health check, routine
272.2	Hyperlipidemia, mixed	V20.1	Infant or child (healthy) receiving care, other
272.4	Hyperlipidemia, other & unspecified	V42.0	Kidney transplant
401.1	Hypertension, essential, benign	V72.6	Laboratory examination
401.0	Hypertension, essential, malignant	V58.61	Long term (current) use of anticoagulants
401.9	Hypertension, essential, unspecified	V58.69	Long term (current) use of other medications
402.10	Hypertensive heart disease, benign, without congestive heart failure	V70.3	Medical examination for administrative purposes, other
402.90	Hypertensive heart disease, unspecified, without congestive heart failure	V22.0	Normal first pregnancy supervision
276.8	Hypopotassemia	V22.1	Normal pregnancy (other) supervision
244.9	Hypothyroidism, unspecified	V71.9	Observation for unspecified suspected condition
607.84	Impotence of organic origin	V24.2	Postpartum follow-up, routine
564.1	Irritable colon	V72.84	Pre-operative examination, unspecified
414.9	Ischemic heart disease, chronic, unspecified	V22.2	Pregnant state, incidental
719.40	Joint pain, site unspecified	V74.5	Special screening examination for bacterial/spirochetal venereal disease
593.9	Kidney & ureter disorder, unspecified	V82.5	Special screening for chemical poisoning and other contamination
623.5	Leukorrhea, not specified as infective	V76.2	Special screening for malignant neoplasms, cervix
		V78.1	Special screening for other and unspecified deficiency anemia
